Re: Addendum Number 4
IFB # C1746 – The Museum at FIT History Gallery Renovation

Questions:

- Q1. We are trying to understand our responsibility for the data/IT scope and was wondering if you knew if this was to be handled by the GC or by owner?
- A1. IT is similar to Security scope - there will be coordination with FIT for the wireless access points that need to be replaced and remain operational during the duration of construction, in addition to hardwired data ports. (See Device Plan A-081 and I.T. Drawings.)
